I BUILD THINGS THAT WORK

01
Automation

The routine you do by hand starts running on its own.

02
Ads

I launch and run ads so you can see where each client came from.

03
Websites

Fast websites that explain what you do and bring in leads.

Plain
I write for business owners, not programmers.

Honest
Real numbers only. No number, no promise.

Live
Every case can be opened and seen working.

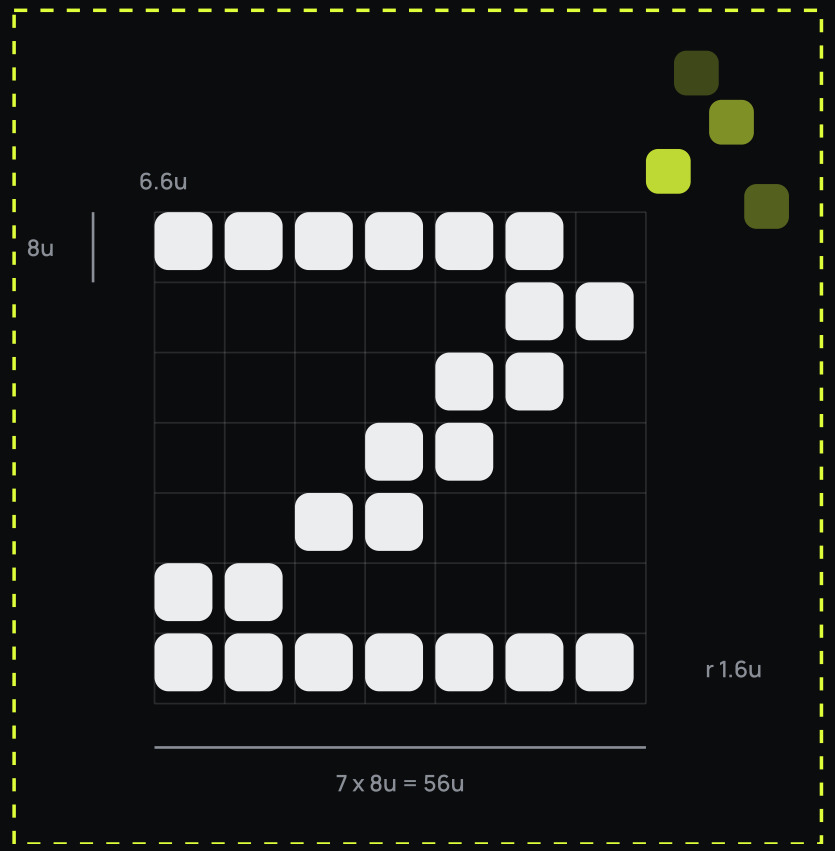

A Z MADE OF TILES

The mark is a Z built from tiles on a 7x7 grid. The corner tile breaks off and drifts away as four lime squares.

The idea: manual work breaks apart, a system that runs itself stays. Same move as the particle portrait on the home page.

ZAKHAR

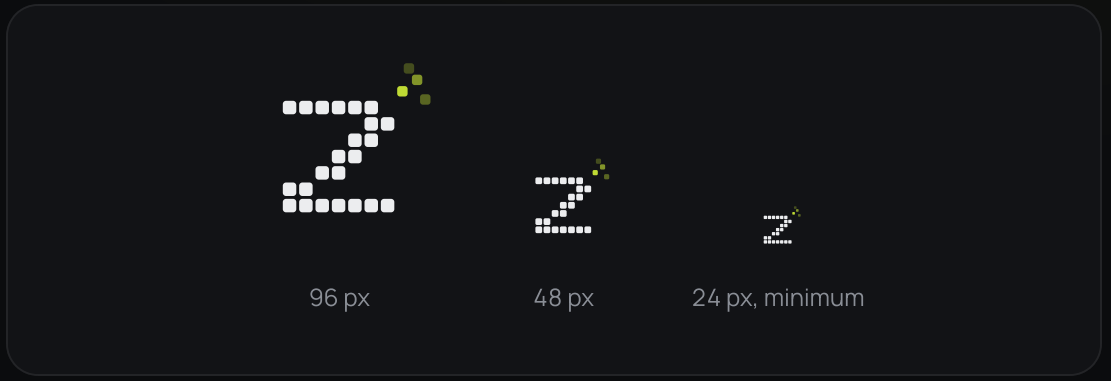

GRID AND MODULE

Parameter	Value
Module u	1/94 of the box side
Grid	7x7 cells of 8u
Tile	6.6u, gap 1.4u, radius 1.6u
Tile colour	Ink #ECEDEF or Bg #0B0C0E on light
Drift	4 squares of 5.1u, lime #DFFF3A
Opacity	85 / 55 / 35 / 25%
Wordmark	ZAKHAR, Unbounded 800

LET IT BREATHE

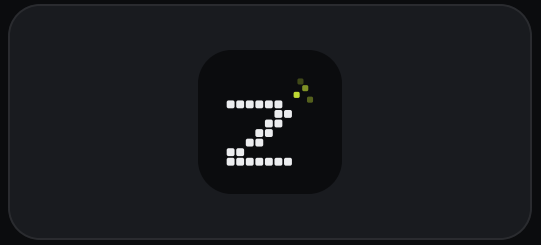

Clear space: two grid cells (16u) on every side. No text or screen edges inside.

At least 24 px on screen and 8 mm in print. Smaller than that, use the app icon.

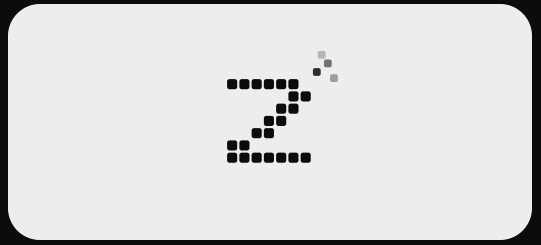

Primary
Ink tiles, lime drift

App icon
Avatar, favicon

Mono light
Photos, dark fills

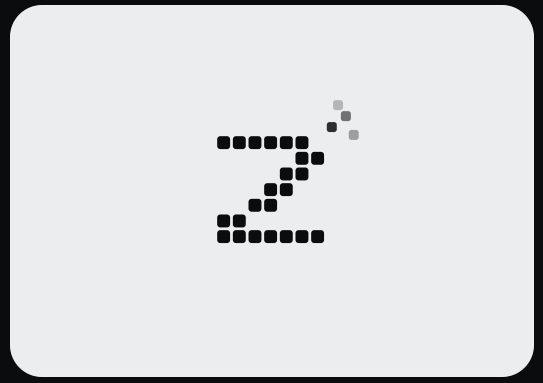

Mono dark
Light documents, print

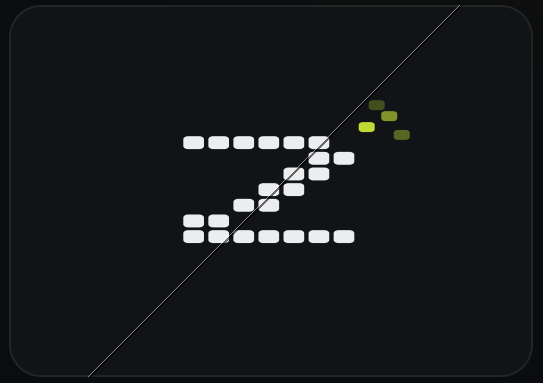

LEAVE THE MARK ALONE

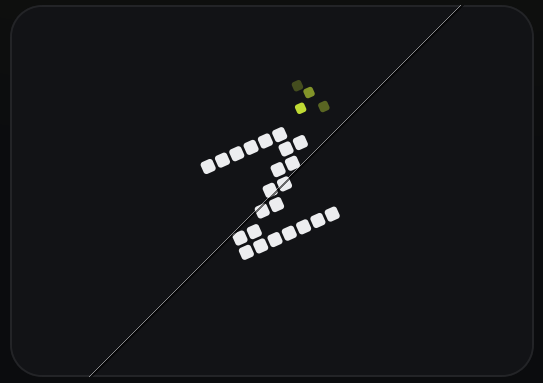

Do On graphite

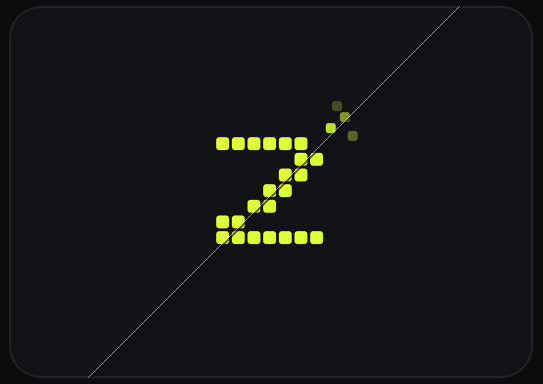

Do Mono on light

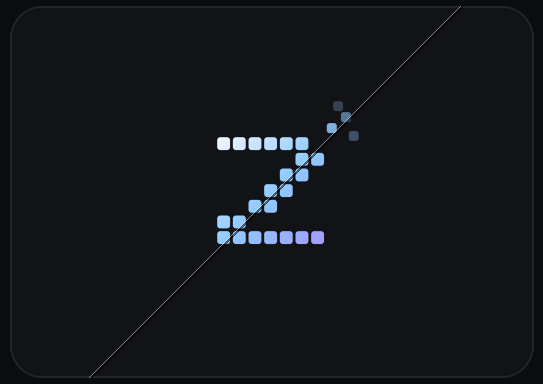

No Don't stretch

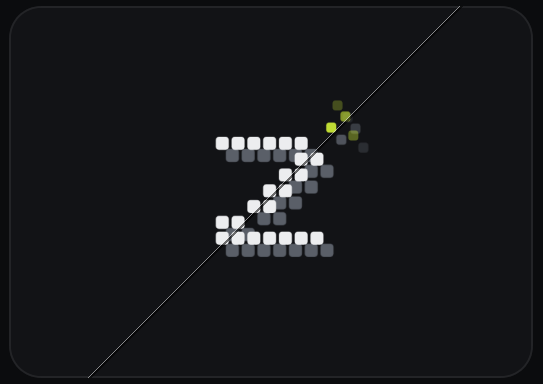

No Don't rotate

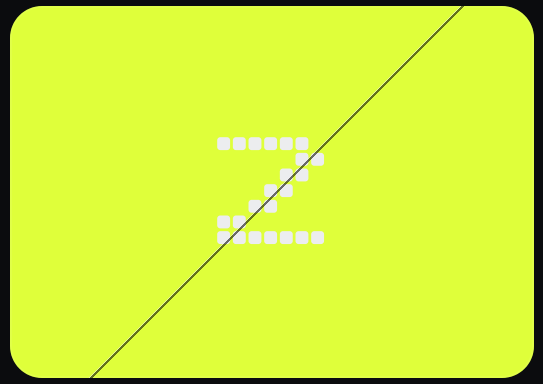

No Don't make it all lime

No No gradients

No No shadows or outlines

Lime
#DFFF3A
Accent, text on it #0B0C0E

Lime goes only here

Primary button, active nav underline, key numbers, focus ring, glow on the name and portrait.

No lime here

Body text, long paragraphs, large block fills, list icons. One lime accent per screen.

Utility

Lines rgba(255,255,255,.08) and .16 for borders. Lime tint rgba(223,255,58,.14) for badges.

READABLE BY ALL

Ratios are computed with the WCAG 2.2 formula from the same colours as the site. Text stays at AA (4.5:1) or higher.

Lime on graphite passes AAA, but it is never used for paragraphs: it is an accent, not text.

	Text / background	HEX	Ratio	WCAG
Aa	ink / bg	#ECEDEF / #0B0C0E	**16.7:1**	AAA
Aa	text / bg	#B9BCC3 / #0B0C0E	**10.3:1**	AAA
Aa	text-2 / bg	#8A8E96 / #0B0C0E	**6.0:1**	AA
Aa	text / bg-2	#B9BCC3 / #121316	**9.8:1**	AAA
Aa	text-2 / bg-2	#8A8E96 / #121316	**5.7:1**	AA
Aa	ink / bg-2	#ECEDEF / #121316	**15.9:1**	AAA
Aa	text / bg-3	#B9BCC3 / #191B1F	**9.1:1**	AAA
Aa	ink / bg-4	#ECEDEF / #22252A	**13.1:1**	AAA
Aa	lime / bg	#DFFF3A / #0B0C0E	**17.2:1**	AAA
Aa	lime / bg-2	#DFFF3A / #121316	**16.4:1**	AAA
Aa	on-lime / lime	#0B0C0E / #DFFF3A	**17.2:1**	AAA

Press

Scale to 0.98 in 100 ms

Easing

`cubic-bezier(.16,1,.3,1)`

press	100 ms	button press
micro	180 ms	hover, colour, arrow
state	320 ms	card, header, menu
case demo	8-15 s loop	plays only in view, pauses outside
reduced	0	prefers-reduced-motion: no motion at all

I TALK LIKE A PERSON

- First person: "I built", not "we provide".
- For business owners, no jargon.
- A heading and 1-2 lines per block, max.
- Real numbers only.
- A button says what happens next.
- No em dashes, hyphen only.

Do
I automate businesses, run ads and build websites.

~~Don't~~
~~We provide a full range of digital solutions.~~

Do
The listing goes live on its own.

~~Don't~~
~~Innovative business process optimisation.~~

Every case in four steps

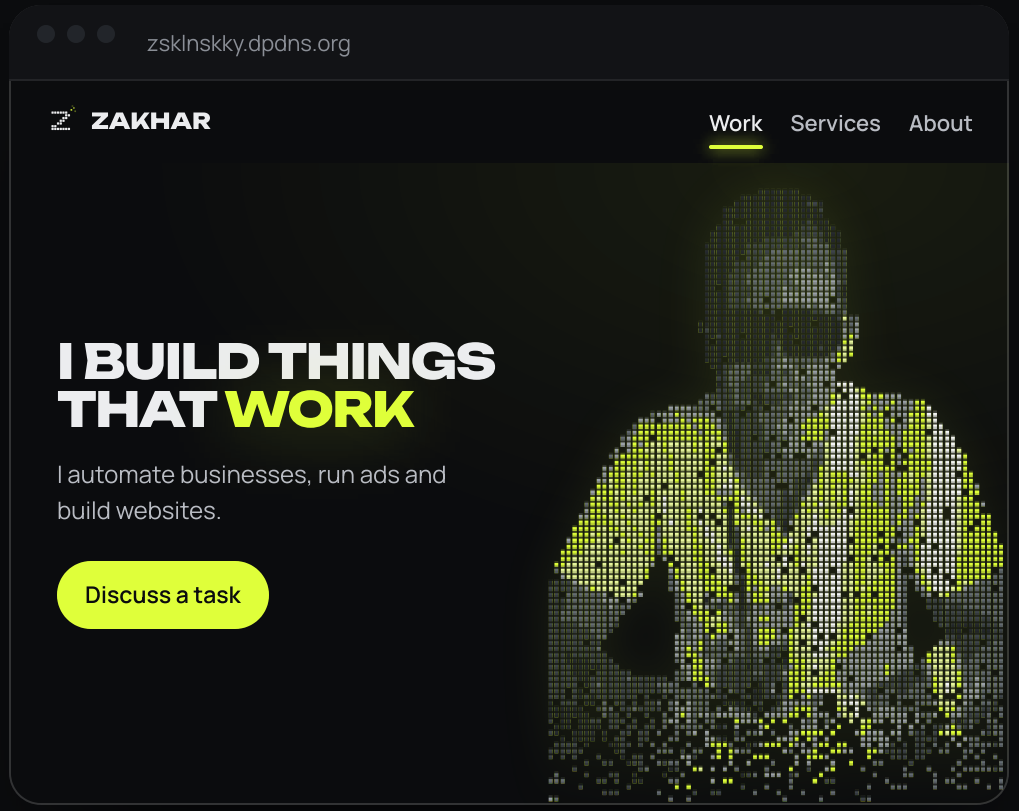

Before
What hurt and how much time it took.

What I did
In plain words, no tech list.

The result
A number, if it was really measured.

Next steps
What could be done next.

SITE AND CLIPS

Website

Multi-page. Each case has its own page with a live demo.

Home · Work · Case · Services · About · Contact

Clips

Vertical 1080x1920: black background, Unbounded caps, one word glowing lime.

Portrait

Square lime and white particles on graphite. They gather and follow the cursor.
